2 May 2017,

To whom it may concern:

Re: Keshet A. T. Limited Products to be imported into South Africa

This letter serves to confirm that we have met and dealt with Mr Yossi Shina from the above entity with regards the importation of their products "De-Burn", "De-Bleed" and "De-Bites", into South Africa.

We imported a small consignment and these products were distributed to families and Security companies in South Africa.

We have received great praise for these products that are utilised on a daily basis and are far superior to similar products available there claiming similar results.

We will, in the near future distribute these products country-wide, as they have all the necessary regulatory approvals.

Yours Financially

---

B. Bloch
