To who it may concern

Asa Emergency Medical First Responds unit for two decades in New York rescue organization and owner of a medical company in the medical field have been exposed for Keshet Die Bleed and De Burn and I have determined that the use of these products represent a new breakthrough in the field of emergency medicine and rescue. From my experience this products it's a great new way to treat suffering of children and adults during trauma.

I expect to bow and future developments in their success and I highly recommend using their products

Best regards

Gershon Gutman.
