

20/06/2017

Dear yossi

Further to the units we have revived from your DE brand

For testing for the purpose of pain relief in basic trauma situations

De burn , bleed,bites

And after testing the units for the past 2 months we would like to confirm that we fell very positive for future activity.

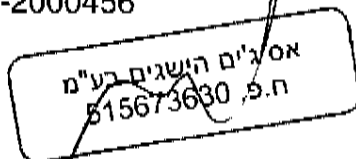

We learned that the products have a positive affect and are useful for the purposes they claim to be .

We would like to move forward and explore the possibility to distribute these products in the market

Best regards

Motti Eitan, ceo
