Dear Yossi

I would like to extend our feedback for keshet AT products

We received 30 units of DE brand

Deburn –

Debled –

Debytes

We can advise to u that after testing the products for a period of 3 months, the products are doing the action that it states.

We have used all three products all them has produced very good results, even better than our preliminary anticipations.

The feedback from our customers was very positive and we have demand for further use.

We will be happy to go to the next phase and be official distributor of keshet AT products in china

Best Regards

Miss Heather Chan

CEO
